# 3 Ply
# Masks

# Cherish - 3 Ply disposable masks

## EN14683 type II compliant

Technical Information

- Manufactured to isolate bacteria and viruses
- Designed with a bendable nose bar and flexible ear loops
- Latex-free, Nickel-free & Cadmium-free
- BFE ≥ 98%
- PFE ≥ 98% at 0.1 micron

3 LAYER PROTECTION

1. Outer Layer: Professional waterproof non-woven fabric

Coloured to distinguish from fluid resistant face masks and ensures the user wears the mask the correct way.

2. Middle Core Filter: High efficiency melt blown filter cloth

Gives 0.1 Micron particle filtration efficiency

3. White Inner Layer: Professional grade hydrophilic non-woven fabric

Enables users to wear the masks comfortably for an extended period.

**Retail Box:** 50 units per box (2 sealed packs of 25)
**Boxes per Carton:** 40
**Carton Size:** 52 x 40 x 38 cm

# Reusable
# FFP2 Masks

## Cloth Mask + 5 Layer Filter + Logo

Stock Code: MED/MASKVIPER1V

EAN: 5055377845124

# VIPER 1v Washable Face Mask with Valve

## Reusable & 5 Layer Filtered Protection

### Technical Information

- This reusable filtered cloth face mask is recommended for personal and everyday use for protection against the spread of germs, viruses, smog particles, dust and pollen in the atmosphere.
- FFP 2 standards that can filter 0.3um non oil-based particles.
- Included Filter: BFE ≥ 95%.
- Each filter has a recommended lifespan of 72 hours use depending on the environment conditions.
- Can be used with or without the filter. Using the filter will add extra protection.
- Adjustable Ear Hook for maximum comfort.

### 5 LAYER ULTRA FILTER PROTECTION

1. Non-woven fabric
2. Melt-blown cotton
3. PM2.5 activated carbon filter
4. Melt-blown cotton
5. Non-woven fabric

### How to Use

1. Wash the mask when you first receive it.
2. Insert the filter into the inner surface of your mask.
3. Pull the mask straps around your ears.
4. Replace the filter, wash the cloth mask after use, and let it dry completely before the next use.

### In the Box - Sealed Zip Pouch

1 x Cloth face mask with valve, 1 x 5 layer filter. Additional filters sold separately.

Note: Company logo in 1 colour optional

# Snap
# Oximeter

Technical Information

A pulse oximeter is a small, lightweight device used to monitor the amount of oxygen carried in the body.

- **Sp02 (Blood Oxygen Saturation) -** Measurement Range: 0–100%, Display Range: 0-99%,
- **PR (Pulse Rate)** - Measurement Range: 25-250 bpm, Resolution: 1 bpm, Accuracy: +- 3 bpm
- **PI (Perfusion Index)** - Low perfusion up to 0.075%
- Results in 8 seconds
- 1.5" HD Large LED display with menu function
- IP22 Water and Dust resistant
- Battery operated, 2 x AAA (Not Included)

**Retail Box:** 1 unit per pack / 100 units per box
**Boxes per Carton:** 1
**Carton Size:** 47 x 32 x 20 cm

**Stock Code:** MED/MEDSNAPOXIM
**EAN:** 5055377844806
**Approvals:** CE

# Swabs

# Flocked Nasopharyngeal Swab

Technical Information

Ergonomic and anatomic design, perpendicular nylon fibre acts like a soft brush thus improves patient comfort and efficiency in cell specimen collection.

Improved sample collection, sprayed-on fibres statically charged and attached to the applicator tip in a uniform perpendicular manner and by means of strong capillary action cell specimens are rapidly absorbed.

Superior sample elution, with an open fibre structure it instantly dislodges the specimen cells into the liquid medium, unlike traditional wound swabs when the specimen is entrapped in the mattress core.

Increased assay sensitivity, flocked swabs are proven to elute >95% of the original sample rapidly thus easily resulting in improved assay sensitivity.

Quantitative volume transfer, measurable and consistent uptake and transfer from patient to the test tube has no internal mattress core to disperse and entrap the precious sample like traditional fibre wound swabs.

Certified free of inhibitors and interference, collection swabs are certified DNASE, RNASE-free and human DNA free. They are also free of any PCR inhibitors.

| Dimension of flocked tip | | | Dimension of PP stick | | | |
|---|---|---|---|---|---|---|
| Width | Thickness | Length | Diameter 1 | Diameter 2 | Breakpoint | Total Length |
| 2.8mm | 3mm | 16mm | 2.5mm | Taper to 1.0 | 78mm | 150mm |
